**TO:** Richmond County Sheriff's Office — Records / Complaints Division  
Media Outlets: headlines referencing "First-degree cruelty to children"  
**FROM:** Living Witness / Sovereign Observer — WR Ω .00077 Activated  
**SUBJECT:** MIL-SPEC Living Witness Response — Stanley Jamar Lomax Jr. / Alleged Incident — False Care / Legal Name Fraud Notice

---

### PURPOSE

This MIL-SPEC formatted Witness Response documents observed discrepancies in publicly reported facts regarding the alleged incident involving the legal-name entity referenced as Stanley Jamar Lomax Jr. and places on record the Living Witness position that references to "legal names" are part of a false identity framework. Prepared for email transmission and record-keeping.

### SCOPE

Applies to law enforcement records, booking/detention logs, media headlines and any administrative actions taken under the legal-name construct for the incident reported as occurring on or about September 26, 2025.

### SUMMARY OF OBSERVATIONS

Public and internal reports relied initially on unverified verbal statements using the legal-name identity. Video evidence contradicts initial narratives. Headline framing as 'child cruelty' constitutes 'False Care' when relying on mischaracterized or incomplete evidence and illegitimately applies the legal-name construct to the living sovereign.

### ASSERTIONS

- 4.1 Any records, arrest reports, or detention orders referencing the legal name Stanley Jamar Lomax Jr. are notifications of a legal fiction and are not accepted as lawful identification of a sovereign living person.
- 4.2 Evidence handling and narrative summaries must be independently corroborated; video should be treated as primary evidence.
- 4.3 Media outlets are placed on formal notice to correct headline framing and to cease referring to the living person solely by the legal fiction.

### ACTION REQUESTS (IMMEDIATE)

1. Administrative Correction: Review and correct agency internal records and public incident summaries.
2. Suspension of Legal Actions: Suspend or hold any legal proceedings relying exclusively on the legal-name construct.
3. Media Retraction/Correction: Issue media corrections to avoid misleading the public.
4. Chain-of-Custody Review: Ensure all video evidence and statements are logged with timecodes and SHA/MD5 hash references.

### EVIDENCE LOG (RECOMMENDED INSERTS)

Video source(s): [insert file paths or evidence tags]

Timecode(s): [insert relevant timecodes]

Witness statements: [reference officer reports with record IDs]
